USB Cloning

USB data cloning makes managing multiple displays more efficient for optimal operation. Instead of setting up each display one by one, data can be copied to a USB for one display and can be sent to the other displays through a USB plug-in.

* USB is not provided by LG. FAT32 or NTFS formatting is recommended.

Compatibility with Crestron Control System

The UN340C has Crestron Connected® Certification, a function that is dedicated to meeting room and that meets the growing need in corporate meeting space market.

* It is a network based control system. Available Crestron control system may differ.

On/Off Time Setting

Create your own time scheduler of your Commercial TV. Once you set your preferred time or day, the TV will automatically switch on or off in accordance with that schedule.

* The settings are adjusted based on the system time users set on their TV.

External Speaker Out

Enhance the entertainment experience with an additional speaker (sold separately). Guests can listen to the TV audio from other rooms within their suite, not only the room where the TV is located.

* Use only with the 3 pole 3.5 mm stereo jack when connecting external speakers.
